MASTER REFERENCE NO: C000906/2020**

It came to our attention that Investors/Members and creditors are under the impression that claims can only be proved at the first and second meetings of creditors. This is not the case, by law we as liquidators must within three months of the second meeting of creditors, convene a special meeting to prove further claims which were received.

Then, we can approach the Master of the High Court for consent to prove further claims received, and with an estate of this magnitude, several special meetings will be convened. You are therefore requested to continue sending us your claims, and as always be assured of our best service.

Yours faithfully

o.b.o all Liquidators
